1. About Interactive Writing

I want to write a program for this: In a folder I have n number of files; first read one file and perform some operation then store result in a separate file. Then read 2nd file, perform operation again and save result in new 2nd file. Do the same procedure for n number of files. The program reads all files one by one and stores results of each file separately.

In this video, we'll discuss how to assign tasks in emails so they're crystal clear to the person on the receiving end. I'll also go over what I call the "Three W's" and how to use them strategically so that your team members will follow through on your task assignments. I'll also share some best practices so that you reduce any potential miscommunication with your team.
