Oracle America, Inc. v. Google, Inc. is a current legal case within the United States related to the nature of computer code and copyright law. The dispute arose from Oracle's copyright and patent claims on Google's Android operating system. Oracle had come into ownership of the Java programming language including its patents, documentation and libraries through the language's application ...

Why doesn't Oracle write the changes to datafiles right away when we commit the transaction? The reason is simple. If it chose to write directly to the datafiles, it will have to physically locate the data block in the datafile first and then update it which means that after committing, user has to wait until DBWR searches for the block and then writes it before he can issue next command.

Notice: As of Today (Jan-2019) ONLY licensed applications with active subscription could read VCE files. There are some applications for Windows / iOS / Android, but sadly, this applications will prevent you from reading your files if you don't have an Active Internet connection, and an Active payed account.. We offer a solution to this limitation!
