A high reliability organization (HRO) is an organization that has succeeded in avoiding catastrophes in an environment where normal accidents can be expected due to risk factors and complexity.. Important case studies in HRO research include both studies of disasters (e.g., Three Mile Island nuclear incident, the Challenger explosion and Columbia explosion, the Bhopal chemical leak, the ...

Designing a test to demonstrate a certain value of the is identical to designing a reliability demonstration test, with the exception of how the value of the scale parameter is determined. Given the value of the and the value of the shape parameter , the value of the scale parameter can be calculated. With this, the analysis can proceed as with the reliability ...
