Overview. Rise time is an analog parameter of fundamental importance in high speed electronics, since it is a measure of the ability of a circuit to respond to fast input signals. There have been many efforts to reduce the rise times of circuits, generators, and data measuring and transmission equipment.

Inflation is defined as a rise in the general price level. In other words, prices of many goods and services such as housing, apparel, food, transportation, and fuel must be increasing in order for inflation to occur in the overall economy. If prices of just a few types of goods or services are ...

A progressive tax is a tax in which the tax rate increases as the taxable amount increases. The term "progressive" refers to the way the tax rate progresses from low to high, with the result that a taxpayer's average tax rate is less than the person's marginal tax rate. The term can be applied to individual taxes or to a tax system as a whole; a year, multi-year, or lifetime.
